More about our medical focus in the Netherlands

We work directly with Ministry of Health of Ukraine

We work at first hand with largest academic hospitals in the Netherlands

We assist with the treatment and provide care to the wounded Ukrainian soldiers, severe oncology patients and children with complicate diagnosis

**Netherlands
For Ukraine
Foundation**

How is the process of working with patients organised?

1. Receiving requests from the Ministry of Health of Ukraine.
2. Compiling patient's medical profile.
3. Submitting the request to a Dutch hospital or rehabilitation center.
4. Receiving an acceptance letter from the Dutch medical institution.
5. Arranging accommodation in NL.
6. Arranging medical transportation UA - NL.
7. Taking care of patients from A to Z (registration, insurance, translation, routine requests, social taxi and much more) therefore each patient has his/her own dedicated buddy/ Guardian Angel.
8. Bringing recovered Ukrainians back home to UA :-)

Ukrainian soldier has been brought directly to Rotterdam hospital by our medical evacuation partners

Do you want to contribute?

In our foundation there are two options for help and support. Both are extremely valuable and complement each other.

We have dedicated telegram group chat to conduct communication, resolve issues, help each other and post new requests and updates. We have great community of volunteers who have knowledge in specific areas like insurance, medical transportation, gemeente faq, etc. We stay helpful to each other and provide support in any kind of questions.

OPTION 1: AD-HOC ASSISTANCE

- aid which is to be provided for a specific and immediate situation or purpose
- on-call schedule
- for example, bringing patient to urgently scheduled appointment, searching for a specific wheelchair, translating doctor's meeting by the phone, etc

OPTION 2: GUARDIAN ANGEL

- individual personal buddy support of the patient
- part-time schedule (approximate involvement +-1 time per week)
- main support: regional registration (gemeente, IND, DIGID, etc), accompanying at medical appointments, translation, assistance with routine questions, etc

Frequently Asked Questions

- 1. I never volunteered or did anything alike, should I start with ad hoc?** - Sure, and you can always switch at any time if you feel so. Also we have conveniently crafted guides for Guardian Angels with written steps of every process.
- 2. Should I spend money for being a Guardian Angel and helping patient in everyday life (groceries, medicines, mobile charge, etc)?** - No. Each patient will be registered and protected under [Temporary Protection Directive Ukraine](#) to receive monthly allowance for everyday use. NL4UA is backing up patients for emergency needs.
- 3. Should I buy clothing for my ward whenever the season change?** - No, we provide packages with brand new seasonal clothes for every our patient that requires it.
- 4. Would I receive reimbursement for driving my ward to/from the hospital?** - No, unfortunately we don't have direct allowance to pay for the gas of our volunteers.
- 5. Im afraid that I won't handle it correctly if patient has severe physical injuries.** - First of all, before committing for a specific patient, you can always talk in private with our medical coordinator and discuss such anxiety which is absolutely normal. Second, we mostly bring outpatients. Examples: maxillofacial traumas, nerves reconstruction, limb prosthetics, vision restoration etc. However, sometimes we also take care of clinical patients.
- 6. Im afraid about psychological aspect of accompanying patient with PTSD (post-traumatic stress disorder).** - We will provide you with the guidelines, developed by professional psychologists - it will help you to understand how to better act. Our foundation also collaborates with Empatia project, that arranged ±10 psychologists, who provide free of charge psychological support to our patients

I want to join your foundation as a volunteer.

How do I start?

1. Send a short email to medicare@nl4ua.org with subject title 'A Guardian for a Patient'.
2. Optional: please include one of your social media profile (Instagram, Facebook, LinkedIn) to your email.
3. After you will be invited by a coordinator for a short online introductory meeting.
4. We will share Guardian Angel's written guide if needed.
5. You will be added to NL4UA private telegram group chat to grab suitable request for you.
